IMT COVID-19 Objectives:

1.) Reduce the likelihood of COVID-19 illness among students, faculty, staff, and guests of the University of Oregon by updating and maintaining the COVID-19 Health and Safety Operations plan as needed and by addressing the evolving situation.

2.) Implement comprehensive testing and contact tracing programs for the university in partnership with Lane County Public Health and Oregon Health Authority.

3.) Develop comprehensive COVID-19 vaccination operational plans with Lane County Public Health and the Lane County COVID-19 Vaccination Collaborative.

4.) Develop agile and equity-minded strategies and direct action to minimize the disruption to our students, faculty, and staff through effective communication, engagement, academic planning, research, and service.

5.) Keep the campus informed of new developments, Oregon Health Authority and CDC guidance, and the university’s action to mitigate and respond and maintain operations.

6.) Document the financial impacts of the COVID-19 illness on the university’s operations, develop financial scenarios and mitigation strategies to aid in the continuity and recovery efforts, and protect its long-term financial stability.

The operations section oversees the branches implementing UO’s COVID-19 Health and Safety Operations Plan. Ensuring operations are consistent with the IMT objectives and safety requirements. As issues arise, the operations section quickly coordinates with the planning section to develop adaptive solutions to address the situation.
